ATTN: FELLOW PATRIOTS

2009

Forty six years ago, I swore an oath when I enlisted in the Army Security Agency (ASA) to defend this nation from all enemies both foreign and DOMESTIC. I now feel that our own government has let the people down, and has become a **DOMESTIC ENEMY**.

Both the Democrats and the Republicans have been passing laws that are destined to change the very culture and fabric of this great country. They have been ignoring the Principles that this nation was founded upon. The government has become totally corrupt by: re-writing history, destroying the voting system, attacking business and the US Dollar, distorting the Justice system, and weakening the Military. Plus they are setting up taxes and fees to pay for all their crazy ideas.

I only regret I have become too old and physically disabled to fight these new enemies. However my mind still works and I have some of my artistic skills left to convey my thoughts into graphic designs to help spread the word and help others to identify a renewed message.

To help spread this emotion and feeling we have created special pricing to help get the message out. **ALL DESIGNS** are available on 50/50 white shirts and can be printed on both side of the shirts for an extra cost of \$3.50 per shirt. Quantity pricing is available as well as custom designs or customizing of these designs for special events.

Chuck "SarDar" Rysticken

	youth	S - XL	XXL	3XL	4XL
